EPPS 6323 – Knowledge Mining

TOPIC

- **Friday, March 25, 2021, Georgia Republicans implemented a bill into law to impose new voting restrictions following President Joe Biden's victory state.**
- Many emotions around this "Voter Suppression Bill" as it seems to restrict a certain demographic and brings back voting restrictions that essentially is "reviving Georgia's dark past of racist voting laws." (Stacy Abrams)
- Restricts voting difficult for poor voters or those of color
- Georgia Governor Brian Kemp states that this bill "expands access"
- Many of the provisions of the bill are unpopular, but to hear the voices of the people, we can go to social media

GEORGIA VOTING LAW (SB 202)

- It shrinks the window for voters to request mail ballots
 - The window to request absentee ballots is going from 6 month to 78 days
- Counties and the state can send mail ballot applications only to voters who request them
- New voter ID requirements
 - Voters who cast mail ballots will have to provide one of several forms of identification
- A limit on the number of ballot drop boxes during early voting
- Shortened early voting in runoff elections
- State lawmakers get much more power over county and local elections
- A ban on handing out food and water within 150 feet of a polling place

RESEARCH STATEMENT

- Complete a sentiment analysis on the topic of this recent bill
- Exploring the data will allow for answering the question of what the emotions are tied to the release of this bill
- A more in dept analysis could answer, whether or not this bill will be implemented in other states. It has already been introduced and talked about in Texas as the Texas Republicans begin to pursue new voting restrictions
